

Collaborint's Website Design and Development Services are the complete solution to your website creation needs. With a focus on both web marketing and underlying delivery technology, Collaborint can easily deliver the entire web development project or any portion of it; from implementing your existing design to programming your application.

## Expert Web Team

We have been designing and developing websites since 1997. Our clients have included multi-national corporations, Fortune 500 companies, small businesses, and non-profit organizations.

With a design skill set that includes graphics, 3D modeling, Flash, and HTML layout, Collaborint can help you look your best and communicate your message effectively. Since we specialize in standards-based design for accessibility, we can also design your site to accommodate access to the broadest possible audience.

Our technical experience covers a wide variety of current web technologies, including ASP.NET, Java, XML, and PHP. We stay current on evolving standards and technologies to always provide our customers with the best available options.

## Benefits

### **One-stop Comprehensive Expertise**

Our staff includes engineers, designers, and HTML specialists with the skills to address your development needs and the tools to implement your vision.

### **Appropriate Platform and Technology Choices**

Our choices are based on our client's specific needs. We maintain expertise on the latest Open Source, Microsoft, and other proprietary technologies.

### **A Complete Solution**

When combined with our maintenance, our design and development services can provide you with a full-lifecycle website solution.

### **Independence**

Collaborint is a privately-owned company motivated by customer satisfaction.

## Selected Features

### **Customer Satisfaction**

In an independently-conducted customer satisfaction survey, 97% of respondents surveyed gave our services a "Very Good" or "Excellent" rating overall. Specific attributes which received highest satisfaction ratings included "courteousness and friendliness of contacts" and "level of understanding of Web technology."

### **Accountability**

Each project undertaken is assigned a project manager to ensure that your project in on time and on budget. We start by creating a detailed plan of all activities and resources needed for the success of the project. Your project manager will work with you to establish goals and timelines according to your requirements.

## Case Study: First Republic Bank

First Republic Bank retained us to perform a complete redesign of the Bank's existing website. "The feedback we've received on our redesigned website has been outstanding... our clients love the site's new layout and features," says Jason Bender, First Republic Bank's VP of Finance. The site was named in California Banker magazine's Best of the Banking Web issue.

First Republic keeps their site current with Collaborint's website maintenance, administration and consulting services.
